A MESSAGE FROM THE DIRECTOR

The State of Illinois Statistical Abstract for 1981 presents selected social, economic, and physical data for the State of Illinois.

Most of the data presented in the abstract have been gathered from state government agencies. The data presented are divided into nine sections: Population and Vital Statistics; Health, Social Insurance and Welfare; Education; Public Safety; Natural Resources and the Environment; Transportation; Economic Affairs; Agriculture; and Government.

The data are generally presented for each county and selectively for the State's Standard Metropolitan Statistical Areas.

If questions arise concerning data that are presented or further information is necessary, please direct requests to the cited source.

*Teacher counts are expressed in full time equivalent (F.T.E.) units for public and nonpublic teachers from 1978 - 1981, and for public teachers from 1974 - 1977. Teacher counts are estimated in full time equivalent (F.T.E.) units where 1 full time teacher = 1.0 F.T.E. unit and 1 part-time teacher = 0.5 F.T.E. unit for nonpublic teachers from 1974 - 1977, and for public and nonpublic teachers from 1971 - 1973. Teacher counts are expressed as a head count for nonpublic teachers from 1965 - 1970, and for public and nonpublic teachers from 1950 - 1964. Elementary teacher counts are head counts for teachers of grades Pre-K-6 and secondary teacher counts are head counts for teachers of grades 7-12 for public teachers from 1965 - 1970. Public pupil teacher ratios are an estimate for 1964. (Secondary teachers in unit districts include junior high school teachers. Two-thirds of these teachers are added to the elementary total. Then the ratios are computed.)

[1]Conceptually, Corporate Farm Income is excluded ... and thus subtracted ... from Total Net Income of All Farms in deriving the Net Income of Farm Proprietors. However, due to the statistical adjustment as to the method used in estimating Corporate Farm Income at the State level, positive adjustments to counties with no Corporate Farms may occur.

[2]Based on annual county estimates prepared by ESCS, U.S. Department of Agriculture.
